WHO WE ARE

INDUSTRIAL MINERALS, ENGINEERED FOR INDUSTRY

UTHAYA CHEMICALS

Uthaya Chemicals manufactures and supplies industrial minerals and chemical products designed to meet the demanding requirements of modern manufacturing.

With carefully selected raw materials, advanced processing capabilities and stringent quality controls, we deliver consistent products, reliable performance and dependable supply across diverse industrial applications.

OUR PORTFOLIO

LIME PRODUCTS

- Quick Lime
- Hydrated Lime Powder

CALCIUM-BASED MINERALS

- Calcium Carbonate • Limestone
- Calcite • Dolomite

INDUSTRIAL MINERALS

- Gypsum • Silica
- Quartz

INDUSTRIAL SALT

- Free Flow Salt
- Crystal Salt • Fine Salt

WHAT SETS US APART

QUALITY

Stringent controls from raw material selection to finished product.

PRECISION

Controlled processing, pulverizing, screening and grading.

FLEXIBILITY

Multiple grades, particle sizes, mesh specifications and packaging options.

RELIABILITY

Efficient manufacturing and bulk supply capabilities.

CUSTOMER FOCUS

Solutions aligned with specific industrial requirements.

OUR VISION

To become India's most trusted manufacturer and supplier of industrial minerals and chemical products through consistent quality, innovative solutions and exceptional customer value.

OUR VALUES

- Quality • Integrity • Innovation • Reliability
- Customer Commitment • Sustainability

MINERAL SOLUTIONS

CORE MINERALS FOR CRITICAL APPLICATIONS

QUICK LIME

LUMPS & POWDER | 60–93% CaO

High-reactivity Quick Lime manufactured through advanced calcination processes.

HYDRATED LIME POWDER

30–96% Ca(OH)_2

High-purity Calcium Hydroxide with controlled particle size, low moisture and excellent flow characteristics.

CALCIUM CARBONATE

POWDER • GRIT • LUMPS

Processed for high purity, controlled particle size and consistent performance.

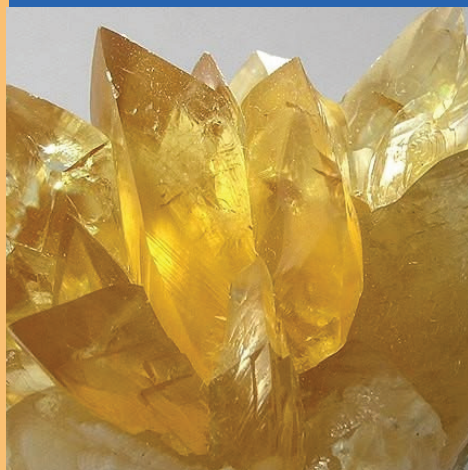

LIMESTONE

• GRIT • POWDER • LUMPS

High-calcium mineral available in multiple particle sizes with superior whiteness and consistent quality.

DOLOMITE

Calcium and magnesium-rich mineral with low silica and consistent quality.

CALCITE

High-brightness, high-purity mineral with uniform particle size.

GYPSUM

RAW & CALCINED

High-purity gypsum with uniform composition, controlled moisture and reliable workability.

SPECIALTY MINERALS & INDUSTRIES

PRECISION-PROCESSED. APPLICATION-READY.

SILICA

SILICA SAND

- High silica content • Low impurities
- Uniform particle size

SILICA POWDER

- High purity • Fine particle size
- Controlled fineness

QUARTZ

QUARTZ GRIT

Precision-graded with controlled sizing.

QUARTZ PEBBLES

Selected for hardness and durability.

QUARTZ LUMPS

High purity with excellent mechanical strength.

INDUSTRIAL SALT

FREE FLOW SALT

Smooth handling with reduced lump formation.

CRYSTAL SALT

Consistent crystal size and chemical purity.

FINE SALT

Uniform particle size and excellent purity.

Available in multiple grades, particle sizes, mesh specifications and packaging options.

INDUSTRIES WE SERVE

- Agriculture & Soil Stabilization
- Chemical Processing
- Pharmaceutical Industries
- Cement Manufacturing
- Steel Industry
- Construction Industry
- Glass Industry
- Paints & Coatings
- Plastic and Rubber Industries
- Water & Wastewater Treatment
- Sugar Industry
- Paper Industry
- Environmental Pollution Control
- Food Processing

**ONE PORTFOLIO.
MULTIPLE INDUSTRIES.
CONSISTENT
PERFORMANCE.**

MANUFACTURING & QUALITY

PRECISION AT EVERY STAGE

Our manufacturing process integrates quality sourcing, advanced processing and continuous quality control to deliver consistent products and dependable supply.

01 SOURCE

High-grade raw minerals are carefully selected and evaluated before production.

02 PROCESS

Advanced pulverizing, screening and grading systems deliver controlled particle sizes and specifications.

03 TEST

Every batch is evaluated for purity, chemical composition, moisture and particle size distribution.

04 DELIVER

Efficient packaging, material handling and dispatch systems help preserve product quality through delivery.

QUALITY IS BUILT INTO THE PROCESS

CONSISTENCY

Standardized processes and continuous monitoring support repeatable performance.

PRECISION

Controlled specifications across particle size, moisture and composition.

SAFETY

Stringent safety protocols and responsible operating practices.

MANUFACTURING CAPABILITIES

- Advanced Pulverizing Units
- Precision Screening Systems
- Quality Control Laboratory
- High-Capacity Storage
- Modern Packaging Units
- Bulk Dispatch Infrastructure

THE UTHAYA ADVANTAGE

- Premium Raw Materials
- Advanced Processing Technology
- Consistent Product Quality
- Multiple Grades & Specifications
- Customized Solutions
- Reliable Bulk Supply
- Technical Support
